text and colorful photographs and illustrations fifty four magnificent full color spreads supplement the material providing an in depth visually exciting focus on specific aspects of the history including ziggurats the origins of writing warfare in the ancient near east greek medicine pompeii roman roads and constantinople

this book talks about human spirit and its manifestations a civilizational perspective image and expectations china from the perspective of the other lecture series civilization communication and mutual enrichment and civilizational problems a cavalier perspective civilization is a kind of spiritual achievements with a holistic feature that is structural but not easy to see thoroughly in culture this determines that dialogue among civilizations is not only a continuous and holistic cultural exchange activity but also a material and spiritual exchange activity in different fields with the growth of international peace power represented by china the cultural exchanges and mutual learning activities among all ethnic groups in the world will be further promoted at a new height and breadth the academic research on dialogue among civilizations followed in this book will also contribute to the arrival of this era this book is suitable for general readers and scholars who are interested in chinese culture chinese civilization cultural exchanges and mutual enrichment

about 5 000 years ago the first urban societies developed laying the foundations for the first civilizations nearly all civilizations share the same few features they have abundant food surpluses contained cities political bureaucracies armies defined religious and social hierarchies and long distance trading ancient egyptian culture flourished between c 5500 bce with the rise of technology as evidenced in the glass work of faience and 30 bce with the death of cleopatra vii the last ptolemaic ruler of egypt it is famous today for the great monuments which celebrated the triumphs of the rulers and honored the gods of the land the culture is often misunderstood as having been obsessed with death but had this been so it is unlikely it would have made the significant impression it did on other ancient cultures such as greece and rome neolithic means e new stone e even though agriculture was the crowning achievement of the period civilizations started out small agriculture at first tended to tie only small groups together these groups also all settled along rivers important as a reliable and predictable source of water as time passed families usually worked the same plot of land over successive generations leading to the concept of ownership ancient mortars and grinding tools unearthed in a large mound in the zagros mountains of iran reveal that people were grinding wheat and barley about 11 000 years ago grass pea wild wheat wild barley and lentils were found throughout the site including some of the earliest known samples this was much further east than most sites known for early agriculture this book furnishes with utmost facility to all classes of readers the needed information on ancient civilization the unusual variety of the subject makes

this a work of endless fascination

this book describes the interactions between various civilizations and societies along the silk road between 500 bce and 1500 ce the period from the first encounters of ancient greek and persian civilizations to the time when maritime exchanges between europe and asia exceeded those on land starting with the genesis and features of different civilizations the book focuses on the history and exchange of different cultures along the silk road zhang qian s successful pioneering feats which inaugurated the opening stretch of the silk road the origins and dissemination of zoroastrianism buddhism christianity manichaeism nestorian christianity and islam the westward spread of papermaking and printing and long distance exchanges of scripts and spoken language music architecture painting and sculpture it also outlines the historically significant migrations of various peoples from east to west such as the xiongnu yuezhi han qiang hephthalites turkic groups uyghurs mongols and xibe the author has interwoven facts anecdotes and his own experiences of study throughout the book making it a fascinating history reader and cultural primer this book thus will be an essential read for students and scholars of eurasian studies and chinese history and those who are interested in the history of the silk road in general

in the great civilizations of the ancient east george rawlinson embarks on an academic exploration of the profound and intricate societies that rose along the cradle of civilization through a blend of keen historical analysis and vivid narrative rawlinson examines the cultural political and social dynamics of early civilizations such as mesopotamia persia and the indus valley his meticulous attention to detail and engagement with primary sources illuminate the complexities of these societies providing readers with a rich understanding of their achievements and legacies the work stands as a testament to the evolving nature of historiography reflecting the intellectual currents of the 19th century and contributing to the broader field of ancient history george rawlinson a prominent historian and assyriologist was deeply influenced by his scholarly background and linguistic prowess in ancient languages his tenure at the university of oxford and his profound interest in near eastern studies led him to develop a unique perspective on the civilizations of the persian empire and beyond rawlinson s expertise was further shaped by his translations of cuneiform inscriptions which provided him with firsthand insights into ancient mesopotamian societies allowing him to contribute significantly to the understanding of these enduring cultures the great civilizations of the ancient east is an essential read for history enthusiasts and scholars alike rawlinson s ability to weave together scholarly rigor with engaging storytelling invites readers to embark on a journey through time exploring the foundational narratives that shaped humanity this work not only enriches our understanding of ancient cultures but also serves as an important reminder of the interconnectedness of human civilizations in this enriched edition we have carefully created added

value for your reading experience a succinct introduction situates the work s timeless appeal and themes the synopsis outlines the central plot highlighting key developments without spoiling critical twists a detailed historical context immerses you in the era s events and influences that shaped the writing a thorough analysis dissects symbols motifs and character arcs to unearth underlying meanings reflection questions prompt you to engage personally with the work s messages connecting them to modern life hand picked memorable quotes shine a spotlight on moments of literary brilliance interactive footnotes clarify unusual references historical allusions and archaic phrases for an effortless more informed read

a textbook covering the history of civilization from the prehistoric period to looking towards the 21st century

in this new paperback edition of early civilizations of the old world charles keith maisels traces the development of some of the earliest and key civilizations in history in each case the ecological and economic background to growth geographical factors cross cultural intersection and the rise of urbanism are examined explaining how particular forms of social structure and cultural interaction developed from before the neolithic period to the time of the first civilizations in each area this volume challenges the traditional assumption of a band tribe chiefdom state sequence and instead demonstrates that large complex societies can flourish without social classes and the state as dramatically shown by the indus civilization such features as the use of childe s urban revolution theory as a means of comparison for each emerging civilization and the discussion of the emergence of archaeology as a scientific discipline make early civilizations of the old world a valuable innovative and stimulating work

consists of articles organized in eleven parts the ancient near east in western thought the environment population social institutions history and culture economy and trade technology and artistic production religion and science language writing and literature visual and performing arts and retrospective essays

in this concise yet sweeping look at the origins and development of ancient new world civilizozations richard adams provides a superb introductory overview of these unique and fascinating cultures incorporating the latest breakthroughs in the study of the cultures of mesoamerica and the andes adams examines the development of the olmec maya aztec and inca peoples among others from simple agricultural societies to urban civilizations with complex transportation networks distinct social hierarchies rich artistic and religious traditions and writing systems that have defied anthropological investigation until recently

that hold a particular fascination for modern readers alongside a broader

contextual panorama of the global cultures that shaped the ancient world the book has over 1 000 colour and black and white illustrations book jacket

the cultural and intellectual achievements of old world civilizations ancient greece or egypt for instance can be glimpsed in present day societies the world over unfortunately accomplishments of the ancient civilizations of the new world have often been obscured by the colonial forces that eventually eradicated much of their populations one glance at the imposing architecture left behind by the inca or the mathematical strides made by the maya reveals that the early peoples of the americas were equally as enterprising as their old world counterparts this exciting volume introduces readers to the magnificent kingdoms and empires of early south middle and north america and the rich heritage of the peoples who made them
